Project 2 Presentations

Evaluator's Name:

Teams evaluated:

The two portions of the form below this line will be given to the two teams you evaluated (they will not see your name).

Comments for Team #_____

1. Write one thing that you think the presenters did well and one thing that you think can be done better next time. (Comments need not be long, but please be specific and kind. Comments like "everything was perfect" or "everything was not clear" are not helpful.)

2. The project is the same for every team, but there is a lot of room for exploration and crativity. Write one thing that this team and your team do differently.

3. If there had been time to ask the team a question, what would be your question? This could be a clarification question or a question about an aspect of the project that the presenters could include in their project writeup.
